

MAGNABOSCO

GREEN LINE

**Generatore
di vapore a pellet**
senza patente

**pellet steam
generators**

Da 45 a 800 Kg/h
From 45 to 800 KGS/h

Da 34 a 600 Kw/h
From 34 to 600 Kw/h

MAGNABOSCO

Generatore di vapore a pellet

* 40 bar per utilizzi speciali quali turbine a vapore o motori / * 40 bar for special requirements like steam engines or steam turbines

Optional: Coclea estrazione ceneri - Ash screw feeder

A richiesta modelli superiori, dimensioni e dati tecnici / For bigger size boiler details on request

A richiesta anche versioni BIFUEL non contemporanei, pellet/gasolio o pellet/gas

On request, BIFUEL type boiler (not at the same time) pellet/gasoil or pellet/gas
